A Powerful Tax Strategy for High Income Earners

The OnePersonPlus® defined benefit (DB) plan is an IRS-approved retirement plan that allows independent professionals, small business owners, and individuals with self-employment income to make large annual contributions and accumulate as much as $1–2.7 million in just 5–10 years. The contributions are deductible and can potentially reduce income tax liability by $40,000 or more annually.

Is a Defined Benefit Plan Right for You?

If you’re a sole practitioner or own a family business, you may qualify for a huge tax deduction each year against your business income. The OnePersonPlus® DB plan is designed specifically to meet the tax savings and retirement income needs of people who are:

- 35+ years of age
- Interested in contributing more than allowed in a 401(k) or SEP
- Able to make that contribution for at least 3 years
- Earning $100,000+ annually

Advantages of Defined Benefit Plans:

- Highest allowable contributions to a qualified plan — $100,000 or more
- Investments grow tax-deferred, building wealth faster
- Tax-deferred roll over to an IRA at retirement (or at plan termination)
- Simplified plan set-up
- You and your financial advisor select the investments
- Reduces income to allow certain S-corporations, partnerships, and sole proprietorships to take potentially up to 20% pass-through deduction on income

Highest Contributions

- Contribute 2-3 times the amount you might otherwise contribute to a SEP or 401(k).
- The contribution is calculated based on age, earned income, and years of service
- Contributions must be made each year
- Contributions are due by the tax-filing deadline including extensions, but not later than eight and one-half months after the fiscal year end

Getting Started Is as Easy as 1-2-3
1. Decide on percent of annual income to contribute. We’ll estimate your benefit and contribution.
3. Once you have received and signed your Adoption Agreement, you can open an investment account and select investments

Important Dates
OnePersonPlus® plans should be opened by the end of your fiscal year, usually December 31, but earlier could be beneficial. Plans must be funded by the business tax filing deadline.

Basic Fee Schedule
Plan Design and Document Preparation Fee (one-time)

You Choose the Investments
Your assets may be invested in mutual funds, bonds, equities, annuities, or other marketable securities that you and your advisor select. Investments with low volatility are generally recommended.

Companies with Employees
Consider an OwnersPlus™ Retirement Program which combines a cash balance defined benefit plan with a safe harbor 401(k)/profit sharing plan. For more information, please contact our plan design specialists at 1-866-269-2709.

Dedicated Defined Benefit Services supports high income business owners and their financial advisors nationwide in the sale and servicing of Defined Benefit (DB) retirement plans. Trusted by leading financial services companies and hundreds of independent RIAs, CPAs and brokers, Dedicated DB has opened over 4,500 plans for 1-10 person firms. Clients are assigned a personal consultant who tailors the plan to meet their financial objectives.
